

OPUS AURA

HVAC Module - 2' (60.96cm) or 4' (121.92cm) HVAC modules integrated into 4' (121.92cm) and 6' (182.88cm) opus profile to discreetly provide even heating and cooling. Opus Aura features a jet flow air pattern and additionally features integrated busways to provide a continued electrical connection for additional profiles added.

Construction

- Standard 2' (60.96cm) and 4' (121.92cm) modules connect in the field to any Opus profile at any location.
- Natural anodized or black anodized finishes available.
- Module serves as plenum box with a standard 8" inlet collar. One inlet collar for 2' (60.96cm) modules, and two inlet collars for 4' (121.92cm) modules.
- Made in Germany, Design by Porsche Design Studio
