

# TANTUS MOTUS Multi-Sensor

**Surface Mounted Multi-Sensor** - Powered by Basalte's Auro multi-sensor, the Tantus Motus allows you to intelligently monitor and manage your smart house, create a balance of form, efficiency, and safety, while continuing your design intent. The integrated Basalte multi-sensor works with the world's leading home automation systems to create the ultimate comfort in your home.

**Construction**

- Extruded aluminum body combined with signature aluminum apure® louver, available in various colors and combinations.
- Made in Germany, Design by Porsche Design Studio.
- European torsion springs pull fixture tight to the ceiling.

**Electrical Protocol**

- Compatible with Crestron, KNX and Lutron HomeWorks QS home automation systems.
- Connect to the appropriate bus cable for the chosen system.
- Sensor must be ordered and installed by trained home automation system installer. Sensor is not included with the Apure trim kit.

**Functions**

- Basalte Auro features
- Attention: features differ per order code, see below
- Innovative flush design, available in black & white finish.
- 360° range horizontal, 90° range vertical.
- PIR motion sensor to automatically switch lights on/off when you walk in a room.
- Temperature sensor to automatically control HVAC through your smart home system.
- Lux sensor for light dependent switching, dimming and controlling scenes.
- Monochrome white LED.

**Listings**

- CE
- Class 2
- IP20 Rating
